OUR PURPOSE  
**FOR THE  
MOUNTAINS**

**PRODUCTS**

We build for the mountains – all seasons, all terrains. Our purpose and know-how drives innovation, and our innovation drives market solutions and performance.

**PLAYGROUNDS**

Rossignol is from the mountains. It's where we live, where we work, where we play. The mountain gives us inspiration, and is why we rise.

**PLANET**

Our obligation is to preserve the integrity of the mountains and in turn, the ecosystem of our planet, for generations to come.

**AND  
A MOUNTAIN  
FOR ALL**

**ACCESS**

Rossignol equips the first mountain experience for many skiers. We want to inspire more first times on the mountain, across regions, cultures and disciplines.

**DIVERSITY & INCLUSION**

Across every aspect of identity, we want more people to have more turns and greater representation so they can find a sense of belonging on the mountain, especially communities left behind.

“

THE DEEPER THE ROOTS,  
**THE HIGHER THE TREE GROWS.**

”

*Motto of Laurent Boix-Vives,  
President of Rossignol from 1956 to 2005*

**1907**

Abel Rossignol shapes its first solid wooden skis in Voiron, inspired by Norwegian models.

**1941**

The Olympic 41 lays down the foundations of the modern ski.

**1990**

The first logo of the apparel line: the Ibis Logo with the first Gore-Tex partnership.

**2001**

Rossignol starts designing skiwear in collaboration with the fashion designer Jean-Charles de Castelbajac. The first co-branding is dedicated to the French Freestyle team for the Salt Lake City Olympic Games in 2002. The beginning of an ultra-creative collection.

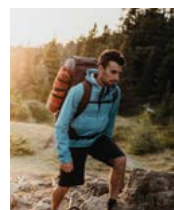

**2015**

Creation of the Rossignol Apparel division. A second wind and a new vision for the brand which is more than ever dedicated to premium skiwear and urban fashion.

**2018**

Opening of the Paris flagship store, a new urban adventure in a world-class capital city.

**2021**

Launch of a spring-summer collection. The brand diversifies itself and wishes to sell its products all year round.

# APPAREL HISTORY

**1937**

The gold winner Emile Allais is the first world Champion on Rossignol skis. It is the beginning of the strong relationship between Rossignol and the best ski champions.

**1965**

The iconic Strato ski is born. The first ski to sell more than a million pairs. The experience of new sensations.

**1996**

The "Junior program" symbolizes the first steps of Rossignol in apparel. Speed suits, windbreakers, anoraks and rain outerwear for young people. The apparel adventure was launched.

**2003-2005**

Rossignol keeps equipping the best. Manu Gaidet, three times freeride world's champion, is even involved in design.

**2014**

Release of the Chamonix boots, famous Rossignol après-ski and city boots.

**2017**

Launch of the Urban Escape campaign with the 11 times biathlon world champion Martin Fourcade. The partnership with the best ski champions continues and reaches the new boundaries of urban fashion.

## PRODUCTS LINES

A MULTI-SEASON, MULTI-SPORT BRAND FOR ACTIVE MOUNTAIN PURSUITS

Today, we've grown beyond skiing and beyond the snow into a global mountain brand. Spanning sports, seasons and terrain, our expansive range of products are imagined, designed and built with the same passion, technicality and know-how that made us the greatest ski brand in the world. From equipment to apparel, we enable human powered movement and active mountain lifestyles for every side, elevation, person and playground on the mountain.

Alpine or Nordic? Ski or snowboard? If there's one thing we've learned over the years, it's that despite a divisive past between and within mountain "scenes", we are all the same. A community of mountain goers who feel most alive and at home in her presence. Regardless of how we move, the same things move us - freedom, passion and belonging - a human reminder that everyone on the mountain is part of something greater than ourselves.

### SPORT

The values of racing and technicality, true to the Sport collection, are the roots of Rossignol. From the Nordic skiing trails between the pines to the freshly groomed slopes including off-piste areas with deep powder snow, the Sport lines seek new barriers to conquer.

PISTE | ACTIVE MOUNTAIN | NORDIC | JUNIOR

### RESORT

The Resort collection is the perfect blend of elegance and technicality. Heritage-inspired, this unique line uses noble materials for ski jackets and pants to stand out from the crowd on the slopes.

To stay true to our heritage, we use our emblematic blue, white and red colors and our shield-shape logo, symbol of a century of know-how.

### LIFESTYLE

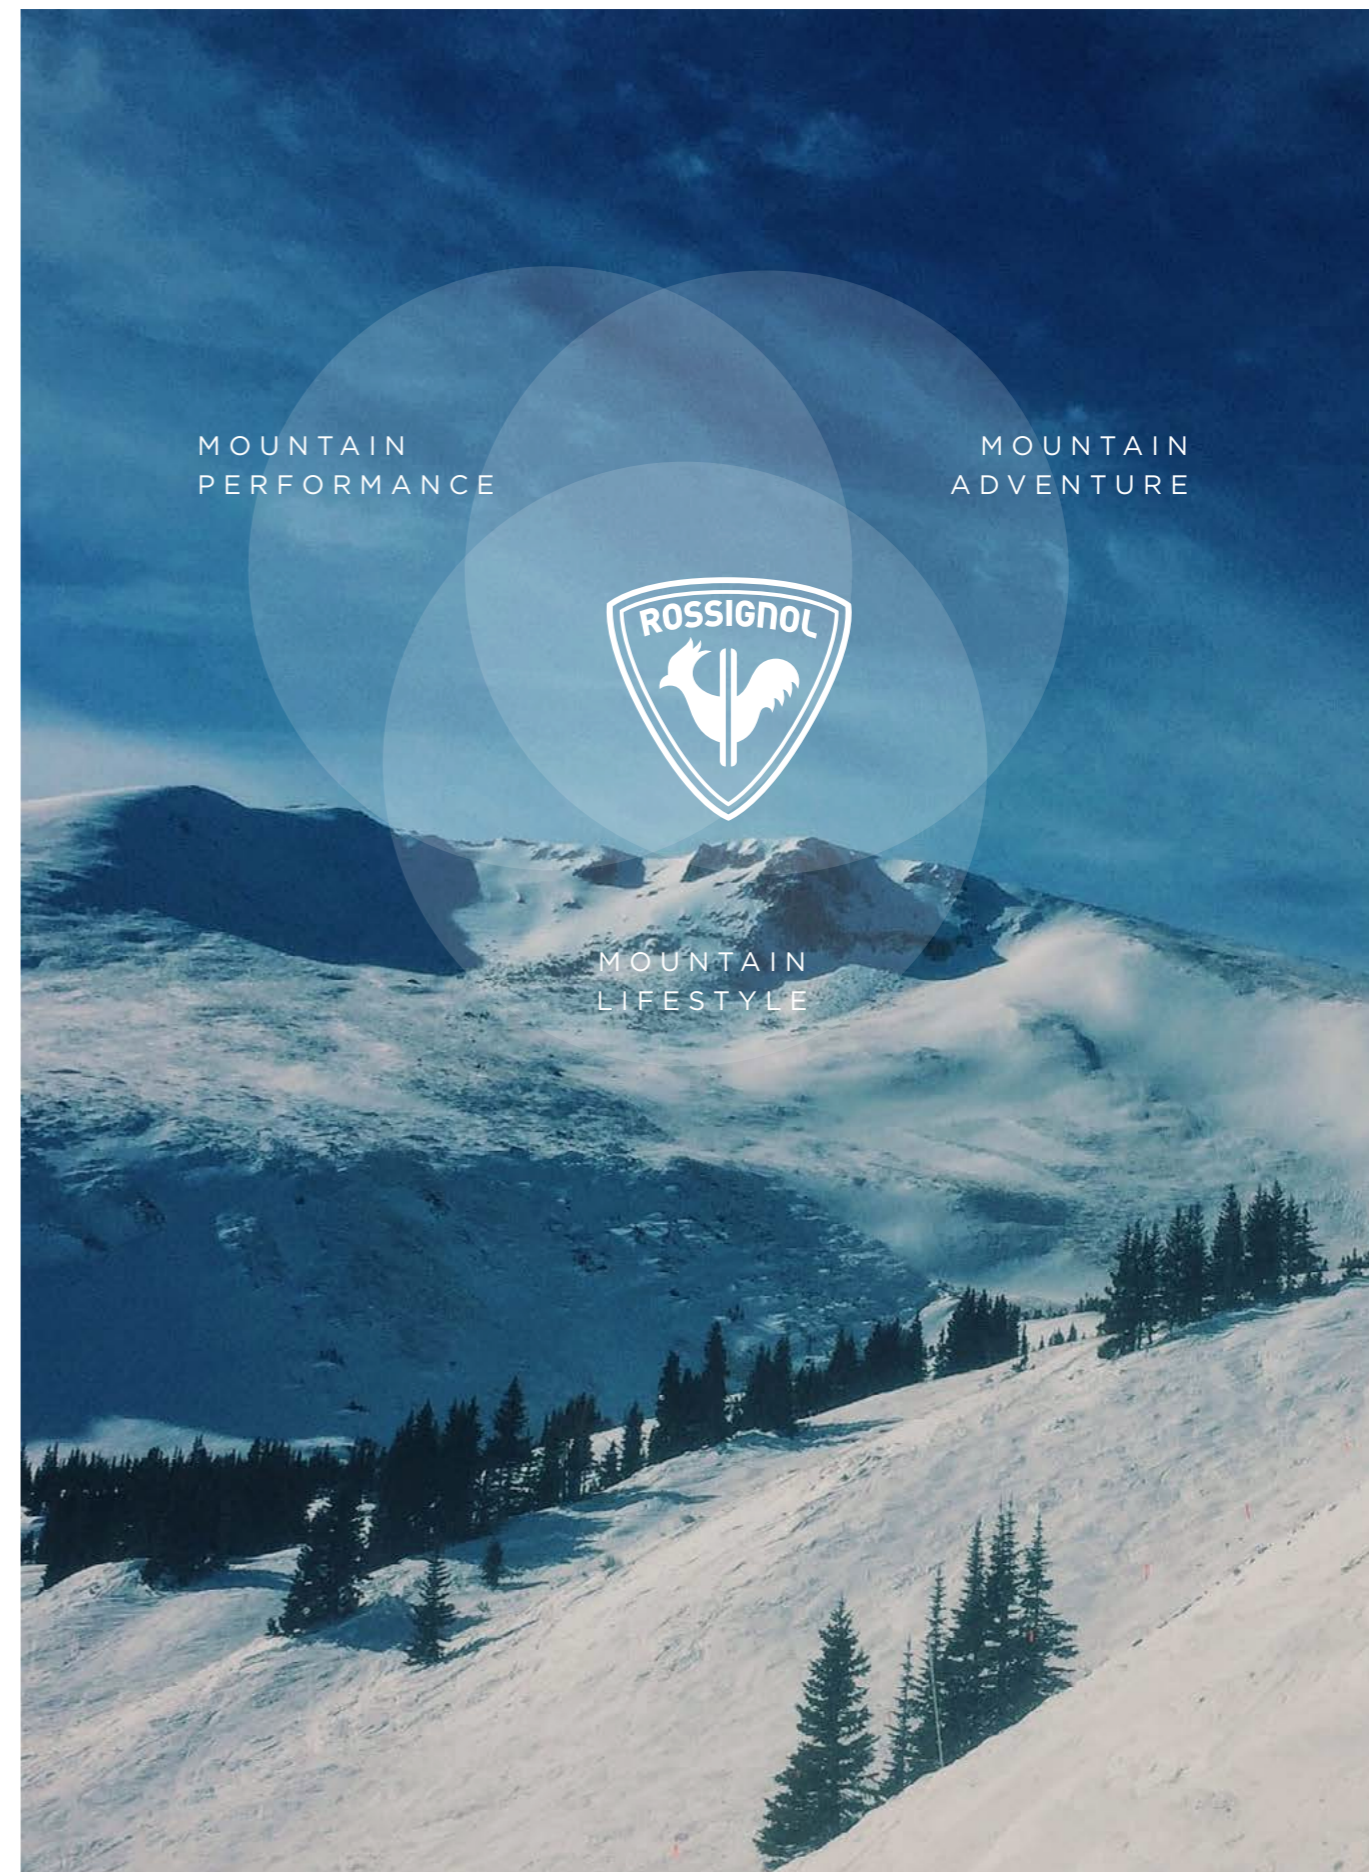

The Lifestyle collection is the most authentic expression of the lifestyle-ski spirit of the brand. Elegant and audacious, the collection reinterprets the values of performance, functionality and refinement into the city. The collection is modern and sophisticated in order to face with style the daily experience.

### CRÉATEUR

In collaboration with the fashion designer Jean-Charles de Castelbajac, the Créateur collection is an unique and colorful skiwear line along with sweaters, sneakers and accessories born from the imagination of the creator.

Colorful, with a hint of craziness, contrasting black and white patterns, mixed fabrics and adjusted cuts, highlight this unique collection.

# HERO

## KEY STORY

### CALLING ALL HEROES

Fast enough to take flight.  
Where speed limits don't exist.  
Racing our friends, ourselves or the world.  
For bragging rights or national glory.  
When pushing for milliseconds,  
Holding on by a sliver,  
We can all be heroes.

The Hero capsule stands out thanks to the best technologies and materials but above all thanks to an unique and high-end design: touches of neon green and neon red, Hero prints, directly inspired by racing, speed and by the Hero ski, give a premium and high-tech look. Specific codes only understandable by ski racing lovers.

MEN

## KEY PRODUCT

The Hero Blackside jacket is the Hero version of our new jacket dedicated to on-piste skiing. It gathers all our best technologies developed through the years for a revolution in terms of comfort and performance. Designed to follow

the most demanding skiers and their carving movements, it features a new high-performance 4-way-stretch to rush downhill on black level slopes.

### AUDIENCE

Regular to expert skiers, mostly on-piste looking for high-performance materials and details. Racing fans, following Alpine World Cup.

### TECHNICITIES

New fabric:  
85% recycled nylon - 4-way-stretch.  
Waterproofness/breathability: 20K/20K -  
PFC-Free water-repellent treatment -  
Fully taped seams  
Insulation: 100% recycled Primaloft® Black -  
100gr in body / 80gr in sleeves

### FEATURES

Removable and helmet-compatible hood.  
Stretch powder skirt. Vent zips.

### CONSUMER BENEFITS

Incredible comfort. No restriction in movement. High level of waterproofness. Very warm insulation.

### DESIGN

Modern design. New fit for every bodies. Racing design with powerful graphics that reminds the new Hero Master LT ski. New soft grey, white and black colors add elegance and purity in order to enhance the jacket.

# PISTE

## KEY STORY

The FW2425 Piste collection pays tribute to our deep heritage of innovation and performance, two elements at the basis of our research and design process. We always look to enrich and improve the skiing experience. This means improving comfort, stretchability, and warmth where it is needed, with a focus on sustainability.

## MEN

### BLACK SIDE

*Skiing down the black slope is a dream of adventure and excitement. It symbolizes a desire to push yourself to the limit, to be ready to take on a new challenge in life. "Piste Noire", "Double Diamond", "Black Run", it's a goal or a playground, it is our forever territory.*

The Blackside outfit is our state-of-the-art piste skiing outfit. It is all about fast movements, getting angles, released thanks to our new 4-directional-stretch fabric. It's all about scaling up to the Black Side.

## KEY PRODUCT 1

The Blackside jacket is our new and most performing jacket dedicated to on-piste skiing. It gathers all our best technologies developed through the years for a revolution in terms of comfort and performance. Designed to follow

the most demanding skiers and their carving movements, it features a new high-performance 4-way-stretch to rush downhill on black level slopes.

### AUDIENCE

Regular to expert skiers, mostly on-piste looking for high-performance materials and details.

### TECHNICITIES

# ACTIVE MOUNTAIN

## KEY STORY

Dedicated to freeride skiing and ski touring, the Active Mountain line targets skiers with a more active practice. Going up the mountain, shaping jumps in the backcountry or ripping down in deep powder. Lighter and multi-purpose garments were created to meet their specific needs.

MEN

## CORBET'S

*A 15-foot drop gives way to a several-hundred-foot, 40-degree powder run. Although it's a breathtaking drop, the reward is well worth it. Drop in. Our most progressive outfits, combined with high performances, for the most demanding riders. Function and style serve an attitude. A drop.*

KEY PRODUCT

The Corbet's jacket is our new freeride and backcountry skiing jacket. Designed with a progressive look and trendy colors, it features all the best technologies to stay protected in deep powder.

### AUDIENCE

Advanced and intermediate freeriders who, inspired by freeski athletes, seek powder but also progressive skiing in all terrains.

### TECHNICITIES

Fabric: 100% Polyester - Oxford  
Waterproofness/breathability: 20K/15K - PFC-Free water-repellent treatment - Critical taped seams  
Insulation: Recycled polyester padding - 100gr for body / 80gr for sleeves

### FEATURES

Fixed and helmet-compatible hood.  
Stretch powder skirt.  
Vent zips.

### CONSUMER BENEFITS

Extra soft hand feel. High level of waterproofness. Mid-warm insulation.

### DESIGN

Relax fit for room to move.  
Clean and functional design.

# ESCAPER

## KEY STORY

**ESCAPER: AN ALL-YEAR ROUND CAMPAIGN CONCEPT**  
Targeting mainly the multiactive outdoor newcomer, Rossignol, through the Escaper campaign and the microadventure prism, invites the consumer to live a full active experience in the mountains. Making the inspiring accessible.

### VERSATILE & TECHNICAL PRODUCTS

Combining versatility, style and technicity, the FW2425 collection distinguishes Rossignol from its competitors thanks to all-season and multi-purpose products. From a weekend away the city in your favorite resort to a one-day adventure up the neighbour mountain, this collection offers the ideal outfit for all winter escapes (backcountry skiing, Nordic skiing, e-biking, snowshoeing, etc) and everyday outings. The colors are inspired by the skis and are the continuity of our Spring-Summer season.

The ESCAPER products are designed to be worn following the multilayer system which relies on the complementarity of three different layers :

- The first layer
- The middle layer can be a fleece, a softshell or a light down jacket
- The third layer, the ski jacket

# OPSIDE

## KEY PRODUCT - THE OPSIDE FAMILY

Cold days on the mountain or in the city call for versatile layers like the Opside Jackets. Between a hoodie, without sleeves or a warm version, choose the one you like the best. You can layer it under a shell to hold in the heat on the mountain, or wear it solo while Nordic skiing, hiking or

exploring the city. No matter how you enjoy cool weather, breathable synthetic and recycled insulation offers warmth without bulk and helps regulate your temperature as you warm up. Stretch fabric and preshaped sleeves support natural movement.

### AUDIENCE

Active people looking for a versatile and trendy layer for all their outdoor sports.

### TECHNICITIES

Fabric with just the right amount of stretch for easy movement.

Insulation: Breathable Primaloft® Black insulation keeps you warm even in wet conditions and features 100% post-consumer recycled insulation made from plastic bottles. GRS Certified (Global Recycled Standard).

### FEATURES

PFC-Free Water-Repellent treatment.  
Fixed hood (for hoodie versions).  
Zippered pockets.

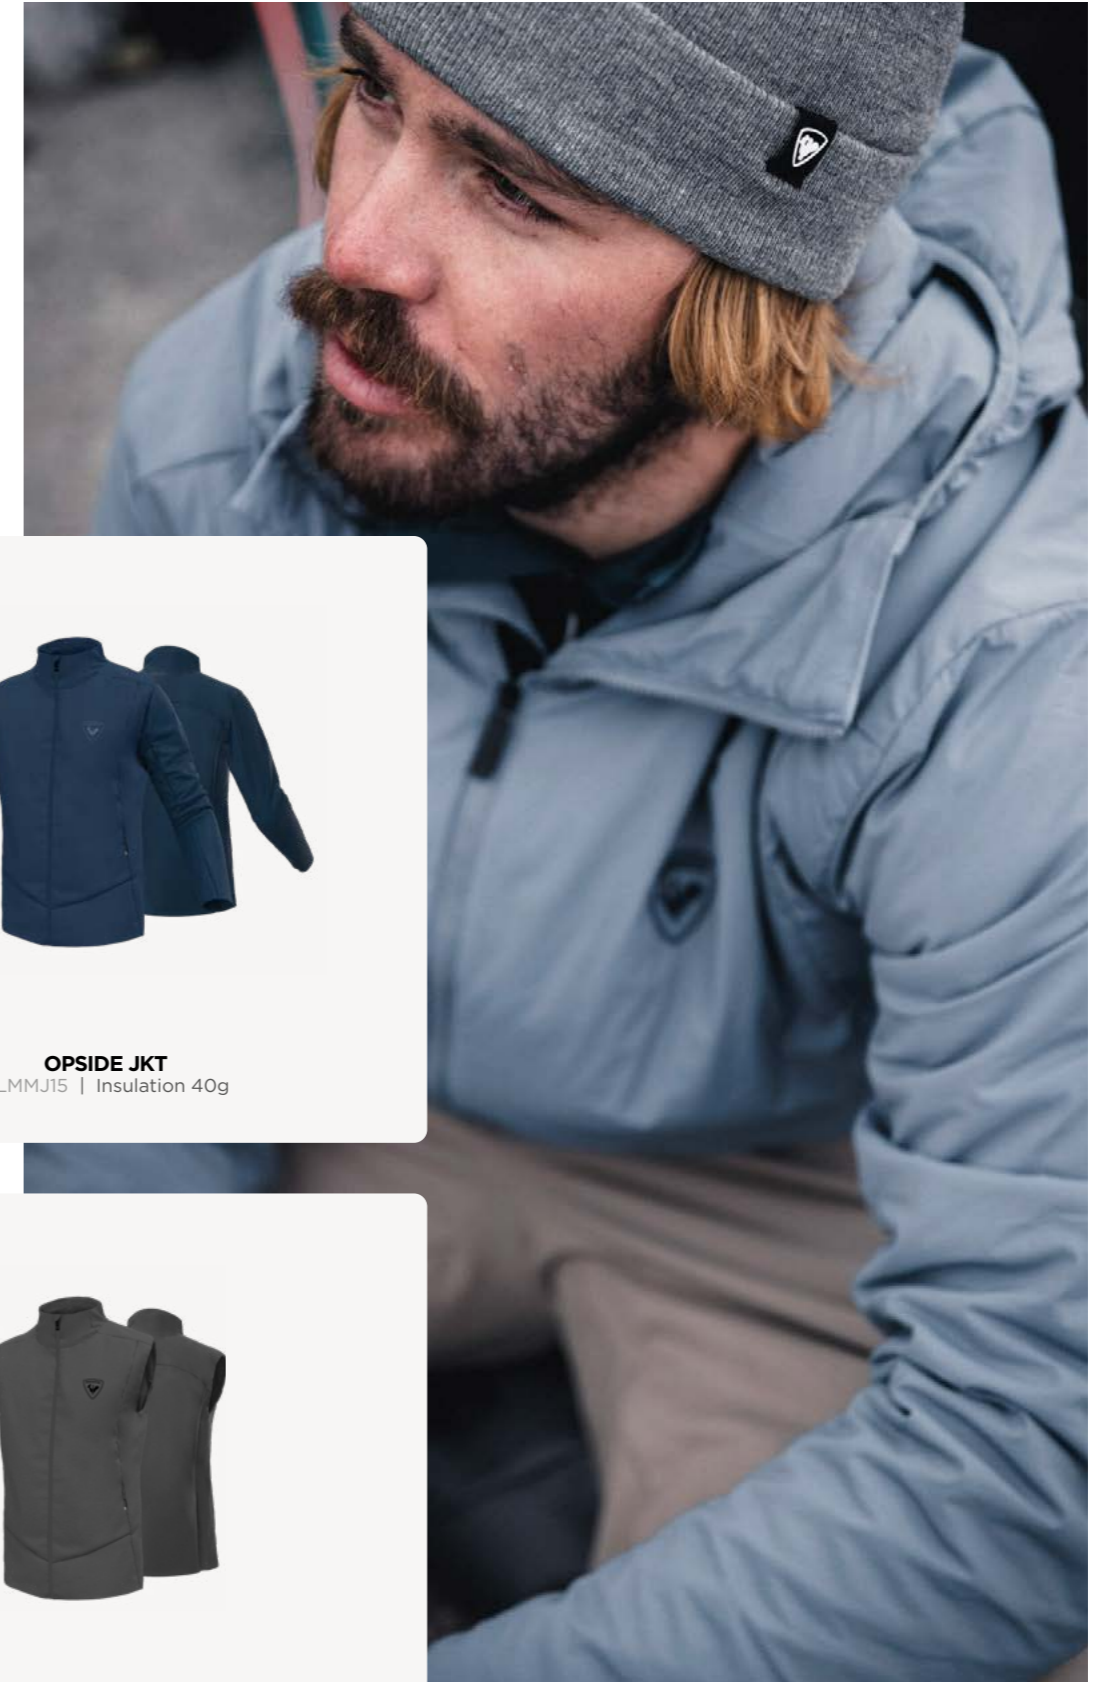

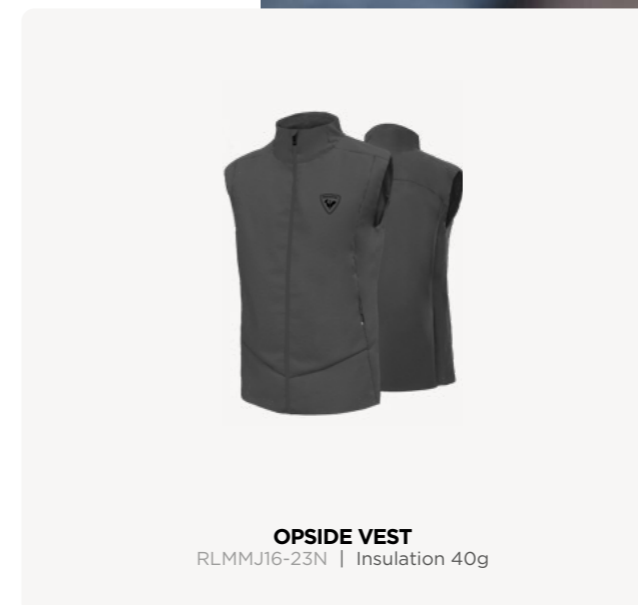

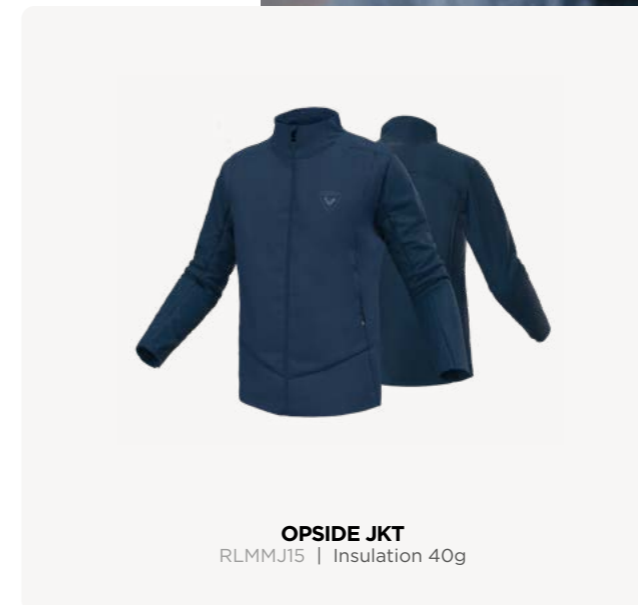

### CONSUMER BENEFITS

Warmth. Softness. Lightness. Comfort.

### DESIGN

A flattering, tailored cut. A minimalistic style.

# RESORT

The FW24-25 Resort collection mixes two universes, the mountains and the city, by offering technical and refined ski outfits with an urban inspiration. From a technical point of view, we aim at using the most up to date technologies: from Primaloft® 100% recycled insulations to soft and stretch fabrics.

## KEY PRODUCT 1

The Diretta jacket is our new premium jacket using high-performance materials and mixing the legendary legacy of Rossignol with stylish mountain life aesthetics.

### AUDIENCE

Intermediate to expert skiers, regular visitor of ski resorts, looking for premium and proven-quality equipment.

### TECHNICITIES

Fabric: 85% Nylon - 15% Elastane - 4-way stretch

Waterproofness/breathability: 20K/20K - PFC-Free water-repellent treatment - Fully taped seams

Insulation: Primaloft® Black - 100gr for outside body/collar/hood/sleeves + Primaloft® Thermoplume for inside body/collar/hood/sleeves.

### FEATURES

Fixed and helmet-compatible hood.  
Stretch and removable powder skirt.  
Vent zips.

### CONSUMER BENEFITS

Incredible comfort. High level of waterproofness.  
Super warm and sustainable insulation

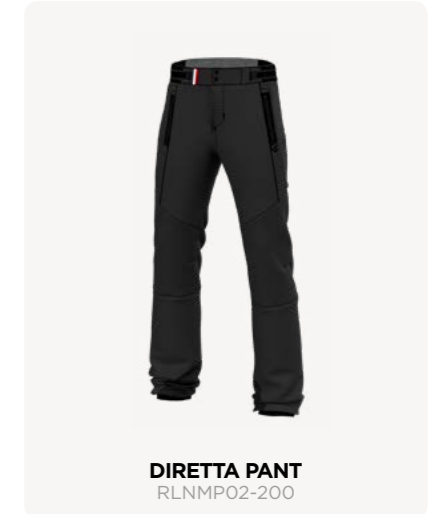

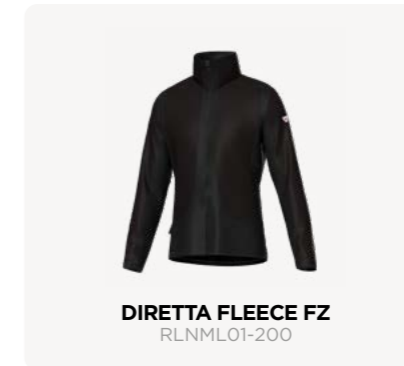

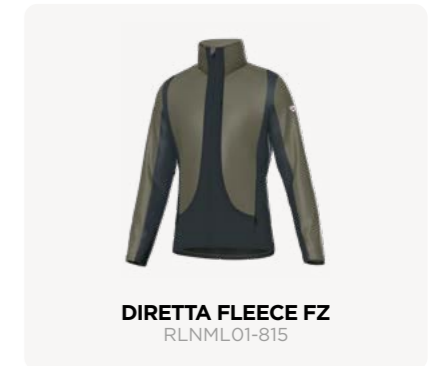

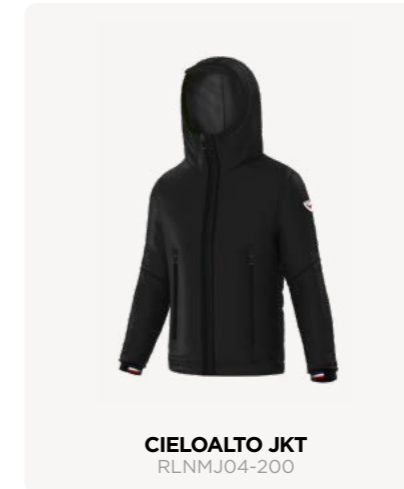

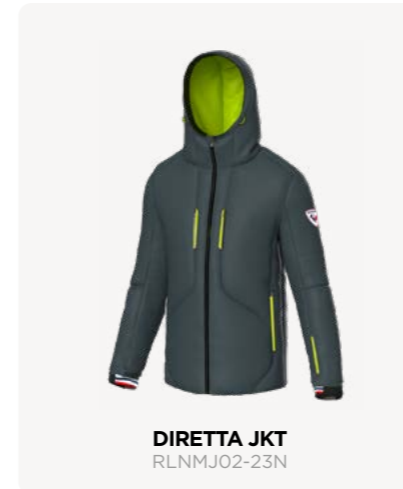

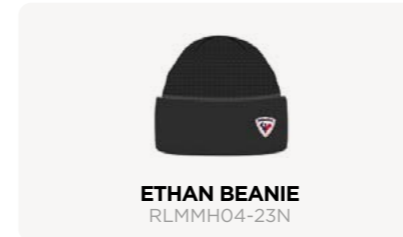

### DESIGN

Stylish and elegant design.

# PISTE

## KEY STORY

The FW2425 Piste collection pays tribute to our deep heritage of innovation and performance, two elements at the basis of our research and design process. We always look to enrich and improve the skiing experience. This means improving comfort, stretchability, and warmth where it is needed, with a focus on sustainability.

## WOMEN

### BLACK SIDE

*Skiing down the black slope is a dream of adventure and excitement. It symbolizes a desire to push yourself to the limit, to be ready to take on a new challenge in life. "Piste Noire", "Double Diamond", "Black Run", it's a goal or a playground, it is our forever territory.*

The Blackside outfit is our state-of-the-art piste skiing outfit. It is all about fast movements, getting angles, released thanks to our new 4-directional-stretch fabric. It's all about scaling up to the Black Side.

## KEY PRODUCT

The W Blackside jacket is our new and most performing jacket dedicated to on-piste skiing. It gathers all our best technologies developed through the years for a revolution in terms of comfort and performance. Designed to follow

the most demanding skiers and their carving movements, it features a new high-performance 4-way-stretch to rush downhill on black level slopes.

### AUDIENCE

Regular to expert skiers, mostly on-piste looking for high-performance materials and details.

### TECHNICITIES

New fabric: 85% recycled nylon-15% Elastane - 4-way-stretch.  
 Waterproofness/breathability: 20K/20K - PFC-Free water-repellent treatment - Fully taped seams  
 Insulation: Primaloft® Black 100% PCR - Body : 133g / Sleeves, Collar and Hood : 100g

### FEATURES

Fixed & helmet-compatible hood.  
 Stretch and fixed powder skirt.  
 Vent zips.

### CONSUMER BENEFITS

Incredible comfort. No restriction in movement. High level of waterproofness. Very warm insulation.

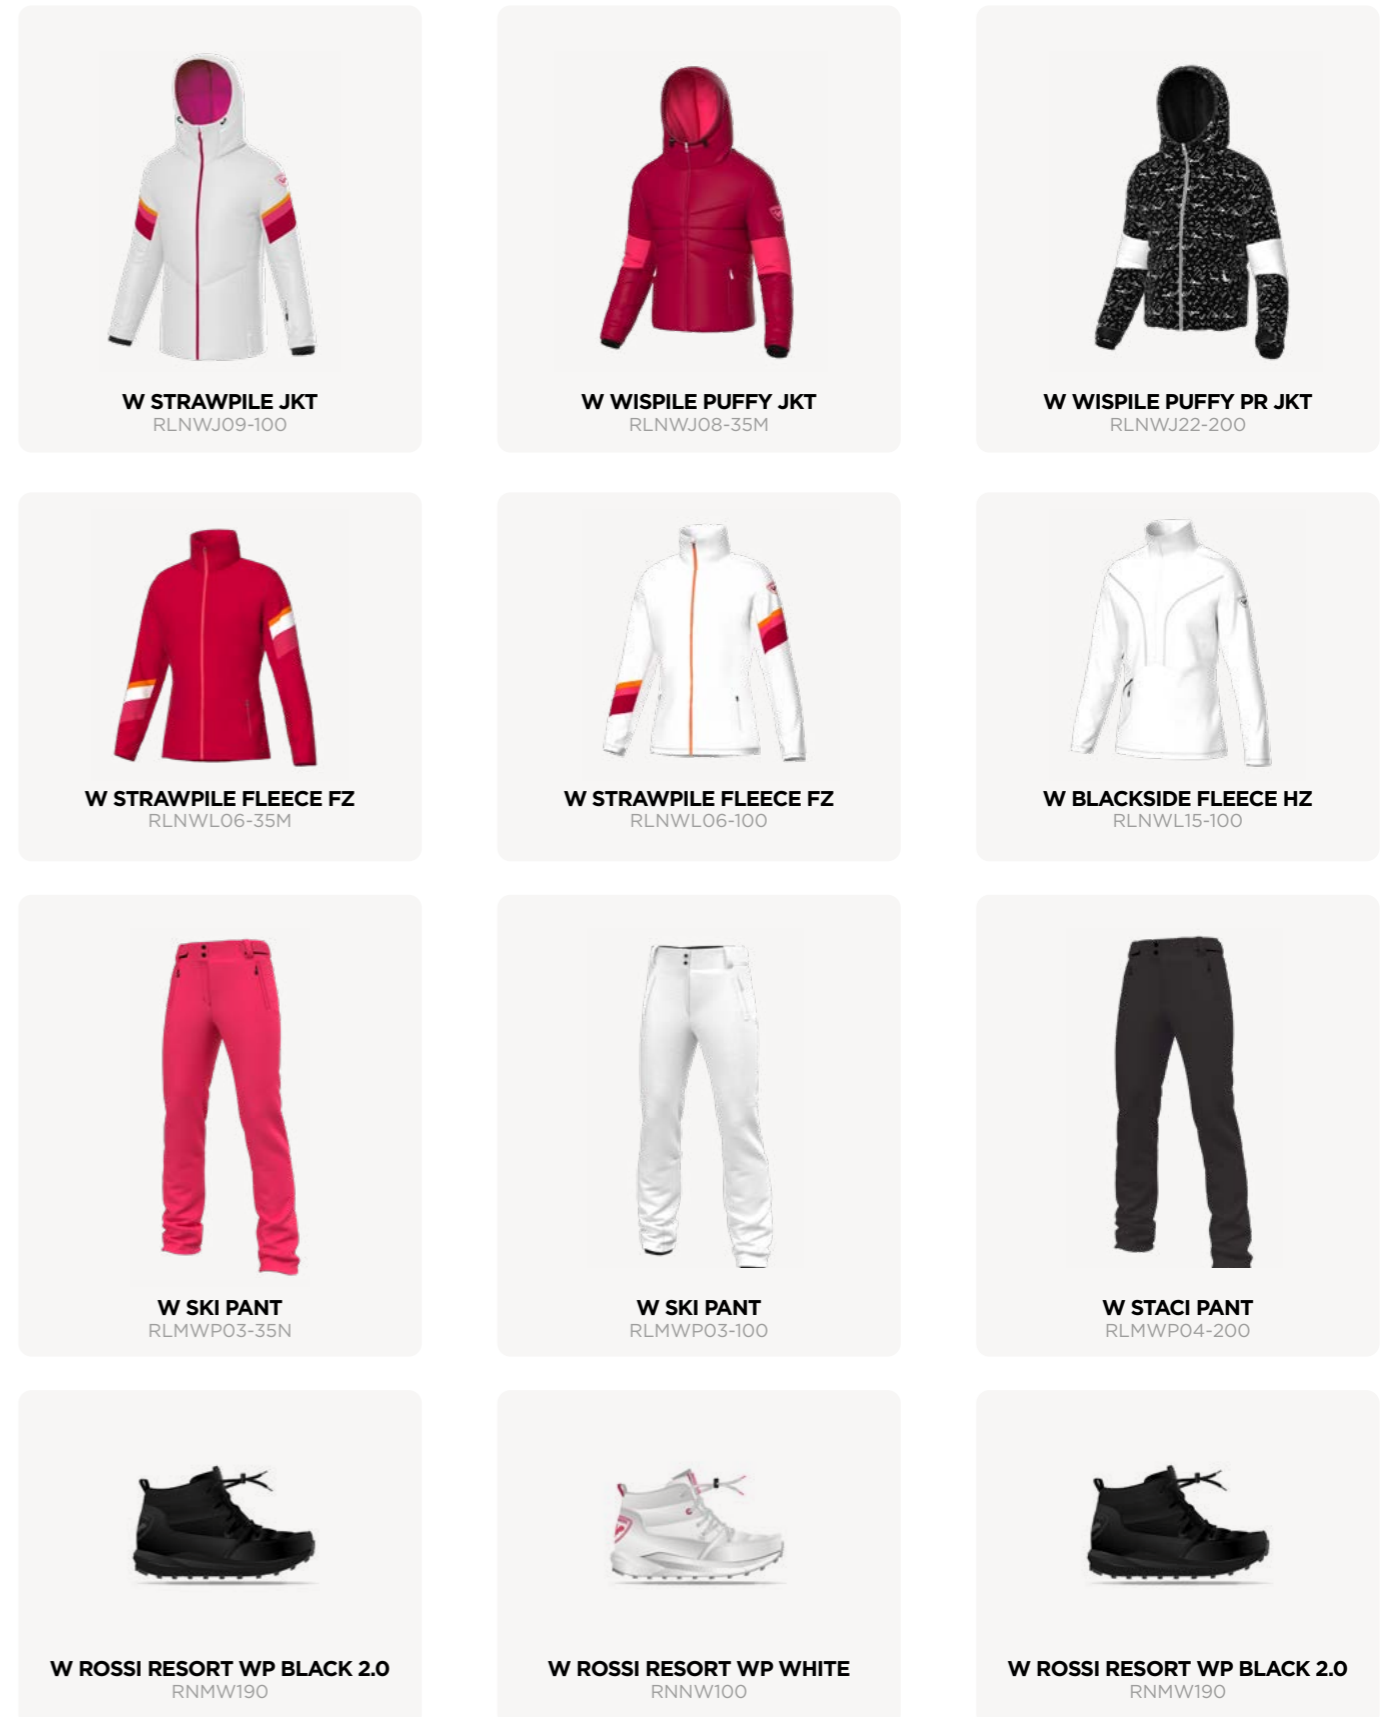

### DESIGN

Modern design. New fit for every bodies.

# ACTIVE MOUNTAIN

## KEY STORY

Dedicated to freeride skiing and ski touring, the Active Mountain line targets skiers with a more active practice. Going up the mountain, shaping jumps in the backcountry or ripping down in deep powder. Lighter and multi-purpose garments were created to meet their specific needs.

## WOMEN

### CORBET'S

*A 15-foot drop gives way to a several-hundred-foot, 40-degree powder run. Although it's a breathtaking drop, the reward is well worth it. Drop in. Our most progressive outfits, combined with high performances, for the most demanding riders. Function and style serve an attitude. A drop.*

## KEY PRODUCT

The W Corbet's 2L Jacket is our new women's shell jacket made for intense freeride and backcountry skiing. Modular for all types of temperature, wear it with the Opside

Hoodie Warm jacket underneath to add warmth or solo for going up in the mountain. Waterproof and breathable, it protects you from wind, snow and rain.

### AUDIENCE

Advanced and intermediate women freeriders who like to ski on many terrains and different snow conditions.

### TECHNICITIES

New fabric: 100% Polyester - Oxford - Super-soft tricot lining  
Waterproofness/breathability: 20K/15K - PFC-Free water-repellent treatment - Critical taped seams  
Insulation: No

### FEATURES

Fixed and helmet-compatible hood.  
Stretch and fixed powder skirt.  
Vent zips.

### CONSUMER BENEFITS

Shell with extra soft hand feel.  
High level of waterproofness.

### DESIGN

Relax fit for room to move.

# ESCAPER

## KEY STORY

**ESCAPER: AN ALL-YEAR ROUND CAMPAIGN CONCEPT**  
Targeting mainly the multiactive outdoor newcomer, Rossignol, through the Escaper campaign and the microadventure prism, invites the consumer to live a full active experience in the mountains. Making the inspiring accessible.

### VERSATILE & TECHNICAL PRODUCTS

Combining versatility, style and technicity, the FW2425 collection distinguishes Rossignol from its competitors thanks to all-season and multi-purpose products. From a weekend away from the city in your favorite resort to a one-day adventure up the neighbour mountain, this collection offers the ideal outfit for all winter escapes (backcountry skiing, Nordic skiing, e-biking, snowshoeing, etc) and everyday outings. The colors are inspired by the skis and are the continuity of our Spring-Summer season.

The ESCAPER products are designed to be worn following the multilayer system which relies on the complementarity of three different layers :

- The first layer
- The middle layer can be a fleece, a softshell or a light down jacket
- The third layer, the ski jacket

# OPSIDE

## KEY PRODUCT - THE OPSIDE FAMILY

Cold days on the mountain or in the city call for versatile layers like the W Opside Jackets. Between a hoodie, without sleeves or warm versions, choose the one you like the best. You can layer it under a shell to hold in the heat on the mountain, or wear it solo while Nordic

skiing, hiking or exploring the city. No matter how you enjoy cool weather, breathable synthetic and recycled insulation offers warmth without bulk and helps regulate your temperature as you warm up. Stretch fabric and preshaped sleeves support natural movement.

### AUDIENCE

Active people looking for a versatile and trendy layer for all their outdoor sports.

### TECHNICITIES

Fabric with just the right amount of stretch for easy movement.

Insulation: Breathable Primaloft® Black insulation keeps you warm even in wet conditions and features 100% post-consumer recycled insulation made from plastic bottles. GRS Certified (Global Recycled Standard).

### FEATURES

PFC-Free Water-Repellent treatment.  
Fixed hood (for hoodie versions).  
Zippered pockets.

### CONSUMER BENEFITS

Warmth. Softness. Lightness. Comfort.

### DESIGN

A flattering, tailored cut. A minimalistic style.

# RESORT

The FW24-25 Resort collection mixes two universes, the mountains and the city, by offering technical and refined ski outfits with an urban inspiration. From a technical point of view, we aim at using the most up to date technologies: from Primaloft® 100% recycled insulations to soft and stretch fabrics.

WOMEN

## KEY PRODUCT

The W Ventina Bomber jacket is our new bomber jacket made for on-piste skiing. An iconic shape empowered by high-performance materials and technical ski features.

### AUDIENCE

Beginners to expert women skiers who want to ski in confidence with an elegant and stylish outfit.

### TECHNICITIES

Fabric: Shiny nylon for shiny parts / 4-way-stretch for softshell parts. Waterproofness/breathability: 15K/15K. PFC-free water-repellent treatment. Insulation: 100% recycled Primaloft® Black insulation. 133gr for body/sleeves/hood/collar.

### FEATURES

Fixed hood with removable fake fur. Fixed powder skirt. Vent zips.

### CONSUMER BENEFITS

Incredible comfort. High level of waterproofness. Super warm insulation. Sustainable alternative to down.

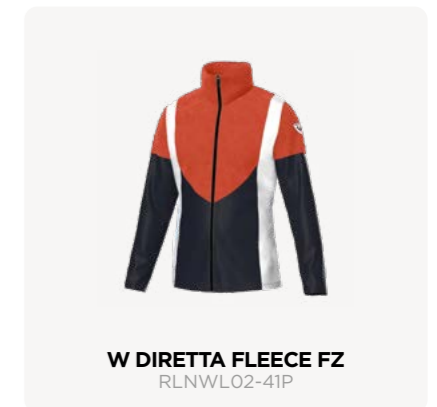

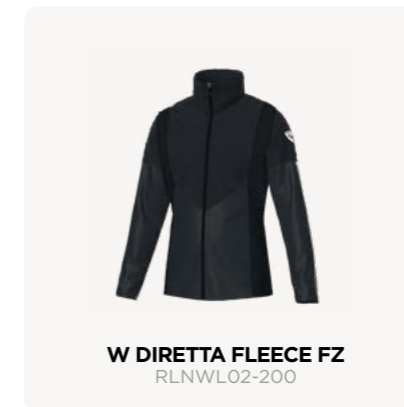

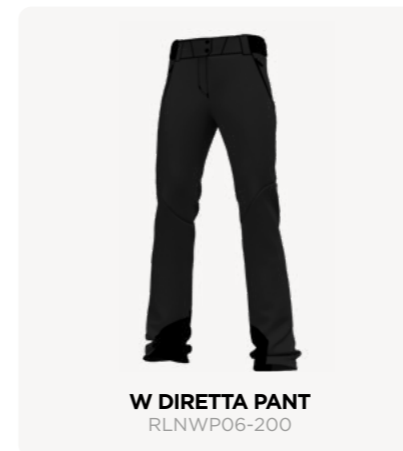

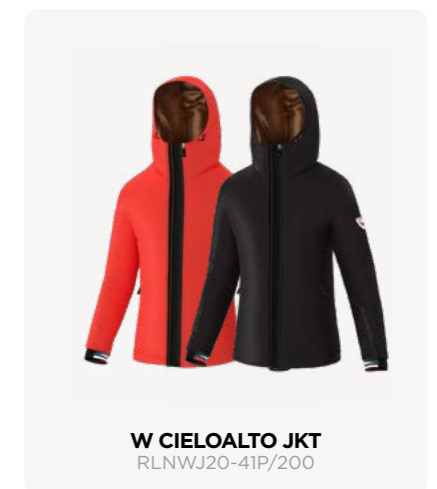

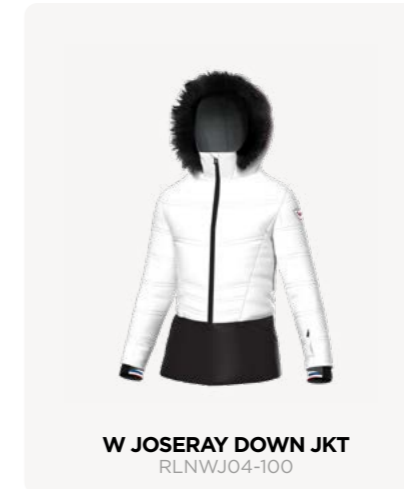

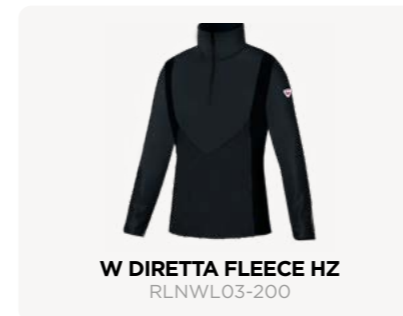

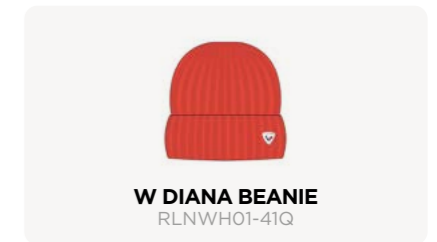

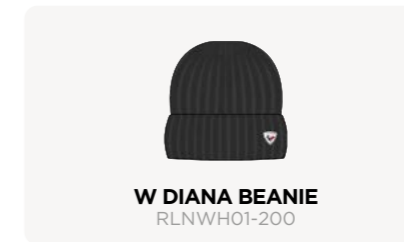

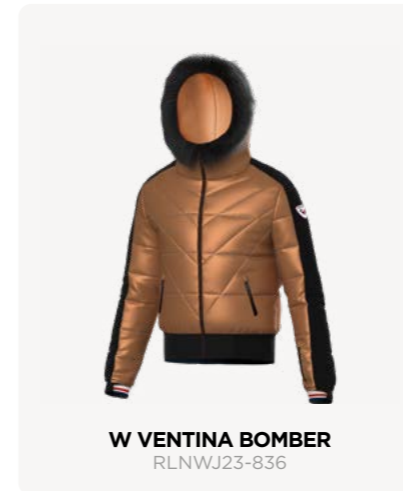

### DESIGN

Stylish and elegant design.

# CRÉATEUR

ROSSIGNOL X JEAN-CHARLES DE CASTELBAJAC

## Double Pop Diamond

« Double Pop Diamond » is a celebration-collection telling the merger of mountains and urban life. I wanted to show the force of sports sublimated by my graphic work, street art and all over, as an ideal wardrobe in the mountains. My colors are enriched with pink for joy of life and beige for the chic. For 20 years, my collection with Rossignol has been associating function, technicality and the pop universe which stays in my imagination. Femininity, style, performance, uniqueness, art, and fashion make "Double Pop Diamond" a step collection."

Jean-Charles de Castelbajac

*Snowphistication*

# TECHNOLOGIES

## PERFORMANCE IMPROVEMENT WITH EXCLUSIVE TECHNOLOGIES

### COMPRESSION

Designed specifically for the most intense sports, like Nordic skiing, patented Rossignol Innovative Compression technology associates compression with dynamic gradient : different compression ratios according to the zones of the body that are most used during efforts. Certified Lycra Sport® fabrics are long lasting and super comfortable.

### STRETCHABILITY

Depending on the elastane composition, our 2-way or 4-way stretch membrane can adapt to every movement constraints.

### SEAMFREE

The audacious and innovative seamless construction reduces the weight of the garment and improves its stretchability and waterproofness. Less frictions, more lightness, better waterproofness and breathability.

## WATERPROOFNESS AND BREATHABILITY

45,000  
20,000  
10,000

### WATERPROOF MEMBRANE

The products are equipped with a 10,000 mm, 20,000 mm or 45,000 mm membrane to guarantee waterproofness. The breathability of our products, that is the capacity of a garment to evacuate humidity and moisture, varies between 10,000 gr/m<sup>2</sup>/24h, 20,000, gr/m<sup>2</sup>/24h and 45,000, gr/m<sup>2</sup>/24h.

### DURABLE WATER REPELLENT TREATMENT

Our skiwear is coated with a DWR (Durable Water Repellent) treatment. It allows the water to drip along the clothing without entering inside. FW23 NOVELTY : all our repellent treatment are PFC-free, without fluorocarbons.

### R-DRY

For all Rossignol products made of a transfer or quick dry fabric.

### 37.5™ TECHNOLOGY

- Dry fast
- Regulation of the body temperature
- Natural fibers from coconut shells
- Perfect body moisture regulation
- Long resistance to washings

### SYMPATEX

The Sympatex® membrane while being extremely waterproof (>45000mm Schmerber) and breathable (>45000 mm/m<sup>3</sup>/24h) is an eco-friendly membrane. Stretching up to 300%, the SYMPATEX membrane is flexible and resistant.

### IMP'R

The IMP'R membrane is exclusive to Rossignol ski gloves : waterproof and breathable.

### WELDED

The bonded insulation baffles offer maximum storm, snow and rain protection. Contrary to the seams of classical down jackets, they are an impassable barrier to humidity.

# TECHNOLOGIES

## INSULATION

### DUVET DU FAUBOURG

Jackets insulated with Du Faubourg down 90/10 750 fill power are perfectly adapted to every weather condition and allow its user to stay dry and warm. This specific French down brings a lighter, natural heat sensation that is also very comfortable and extremely packable. Traceable down certified with Duntrack Down & Feathers.

### PRIMALOFT®

First alternative to down, the synthetic insulation Primaloft® shows surprising functionalities in wet and cold environments. Its water-repellent treatment can keep the skier warm even wet. Packable, the padding is very compact and flexible. 70% to 100% recycled.

### THERMOPLUME

PrimaLoft® Black Insulation ThermoPlume® is comprised of small, silky plumes of fiber that mimic the lightweight warmth, softness and compressibility of natural goose down. A proprietary finish ensures warmth, even in wet conditions.

### G.R.S (GLOBAL RECYCLED STANDARD)

APPLIES ONLY TO PRIMALOFT. The GRS is an international, voluntary, full product standard that sets requirements for third-party certification of recycled content.

### INSULATION 160/100

Synthetic insulation. Different weights to provide adapted warmth to various needs (160 for the body and 100 for the arms).

### POLYDOWN

Synthetic down. Exclusive, microfiber polyester concept used to mimic down, insulation remains highly competitive and warm. Now, 100% recycled on some models.

### R-WARM

For all Rossignol products made of a warm and breathable fabric. Different weights to provide adapted warmth to various needs.

### MERINO WOOL

Merino wool is breathable, durable and temperature-regulating. Thinner and softer than regular wool—making it easy to wear next to skin.

### RECYCLED SYNTHETIC INSULATION

100% recycled polyester insulation. Different weights to provide adapted warmth to various needs (160 for the body and 100 for the arms).

# PRIMALOFT®

ROSSIGNOL x PRIMALOFT®:  
TOWARDS 100% RECYCLED INSULATION

The mountains, Rossignol's playing field since its beginnings, are now more than ever exposed to climate change. We have a special responsibility in all matters concerning nature and mountain's protection. That's why we joined the Fashion Pact, signed the United Nations Charter: Fashion Industry Charter for Climate Action. We also launched at Group level, in the

beginning of 2020, our new Respect program. Then, one concrete way to meet our commitments was to move on with PrimaLoft® as our only branded synthetic and recycled insulation across the new lines.

## OUR COMMITMENT TO POST-CONSUMER RECYCLED INSULATION

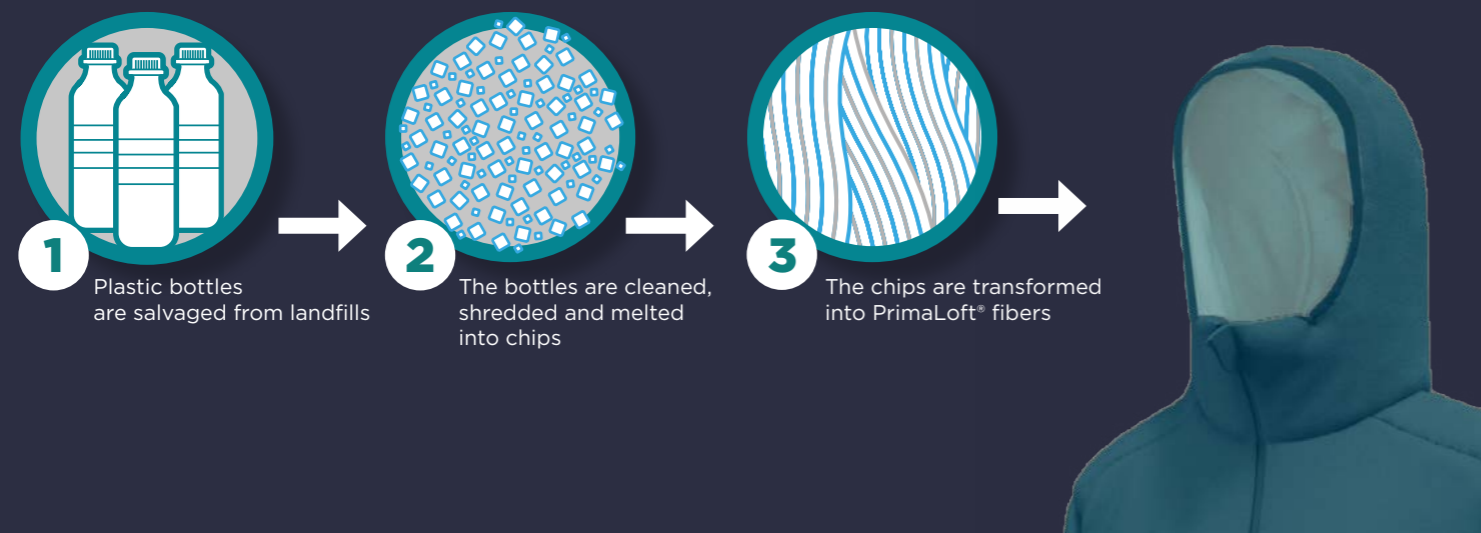

PrimaLoft® is committed to using performance to drive their sustainability efforts by pushing the limits of material science. Since 2015, PrimaLoft has saved 430 million plastic bottles from landfills and 37% of CO2 emission compared to a normal production of virgin polyester.

## IS IT CERTIFIED?

Our three types of recycled insulation are certified by the Global Recycled Standard (GRS). The GRS is an international, voluntary, full product standard that sets requirements for third-party certification of recycled content. It applies to the full supply chain and addresses traceability, environmental principles, social requirements and labelling.

## HOW IT WORKS?

## 4 TYPES OF INSULATION

Discover the benefits of our 4 types of insulation:

Warmth without bulk

Lightweight

Packable

Superior softness

Breathable

100% Recycled Content

### PRIMALOFT® BLACK INSULATION 100% RECYCLED.

GRS certified - 100% PCR (Post-Consumer Recycled)  
Lightweight in nature and designed with packability in mind, PrimaLoft® Black Insulation is the peace-of-mind solution for performance, comfort and environmental responsibility. It was designed using entirely post-consumer recycled materials to create a high performing, eco-friendly insulation. Finer-than-cashmere fibers create millions of air-trapping pockets that keep you warm when the temperatures drop.

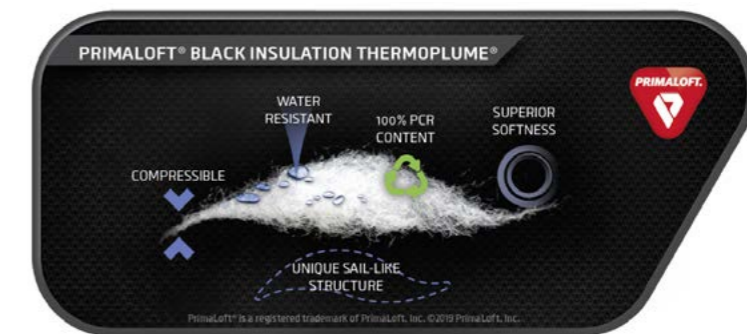

### PRIMALOFT SILVER INSULATION

GRS certified - 100% PCR (Post-Consumer Recycled)  
Used on gloves. Useful in many environments, PrimaLoft® Silver Insulation - 100% PCR utilizes a proprietary water repellent finish to keep you warm when wet. A comfortable loft and feel provides warmth, while super-lightweight properties allow freedom of movement for whatever your day may deliver. Excellent packability frees up space for other gear.

### PRIMALOFT® BLACK INSULATION THERMOPLUME®

GRS certified - 100% PCR (Post-Consumer Recycled) - (on Blackside Puffy Jkts and W Blackside Puffy Jkts for example). PrimaLoft® Black Insulation ThermoPlume® is comprised of small, silky plumes of fiber that mimic the lightweight warmth, softness and compressibility of natural goose down. A proprietary finish ensures warmth, even in wet conditions.

## NEW

### PRIMALOFT® RISE

PrimaLoft® RISE insulation provides elevated style, warmth, and versatility. Its unique construction provides lightweight warmth that is highly durable and resists compression. It provides impressive thermal values at low weights. PrimaLoft® RISE insulation products are made using 100% post-consumer recycled material.
