Inventing tomorrow since 1947

SALOMON

Trends change, technologies do too, sports and outdoor activities evolve. Occasionally, whole industries are redefined by a seemingly small change that quickly becomes such pervasive that it seems impossible there was ever a time “before”.

Steel edges, self-releasing heelpieces, forward-flexing ski boots... all born from the passion, engineering, and innovation of a company fascinated by the outdoors. Our innovation has been driven by generations of athletes, ambassadors, developers, and behind-the-scenes experts working tirelessly to advance the practice of our favorite sports and offer an opportunity to people to be their best selves.

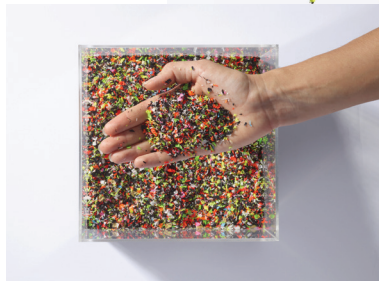

To some, 1947 and 2024 are just years, to Salomon they mark a 77-year-long dedication to innovation and excellence. In Annecy we have been dedicated to inventing tomorrow since 1947 and continue to be excited about shaping the future.

“What fascinates me the most, is what I will do tomorrow.” George Salomon said it, the Salomon Family continues to live by it.

SUMMARY

From cruising on perfect groomers to powdery off-piste adventures, and everything in-between, we've got you covered.

ALPINE SKIS

116 - 184
140 / 116 / 127
R 25

S/RACE

Master a new level of speed.

BLADE TECHNOLOGY

By fusing flexible polymer inserts into the TI layer, this innovative construction maintains the ski's stiffness but adding the liveliness needed for high speed through the turn.

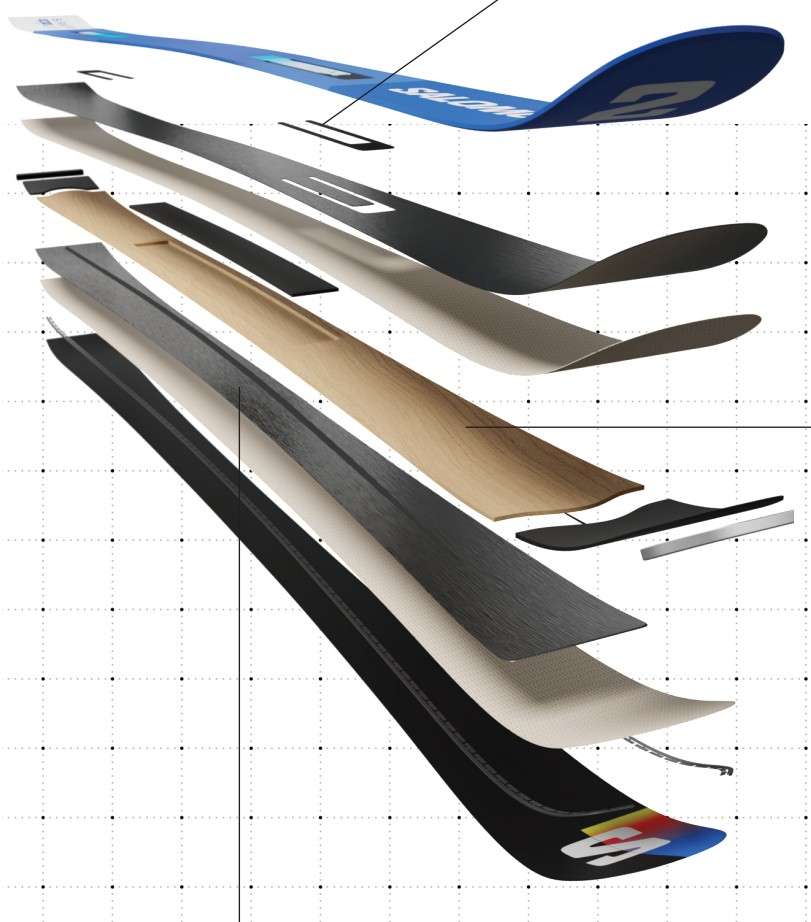

FULL ASH WOODCORE

The full Ash Woodcore is inspired by the Race Woodcore and it provides stability, dynamism and responsiveness.

[TI²] DOUBLE TI

Double layer of titanal, one on either side of the core, improves hard snow performance. It increases precision, offers a good edge grip and improves responsiveness.

NEW

S/RACE PRIME SL 165 13m

L47594100+

Upskill your skiing, master even the most challenging turns.

Build to improve your mastery of the perfect tight curve no matter the conditions, Salomon's S/RACE PRIME SL is a strong competition ski with a 13 m radius. Featuring Salomon's innovative Blade technology, it is reliable and stable underfoot while maintaining the right level of liveliness needed to instantly initiate and complete every turn.

QST X

L47420800+ | L47678200+ (And Skins)

A gateway to powder bliss.

A must-have for all powder enthusiasts seeking their next adrenaline-fueled outings, Salomon's QST X skis are made for bold runs in deep snow. With a wide 116 mm underfoot and big rocker profile, these light skis are made for surfing, drifting, and floating through endless fresh powder while remaining reliable in diverse terrains and conditions.

QST

QST BLANK

L47232200+ | L47369000+ (And Skins)

Join the freeride revolution.

Athlete-inspired, skier tested: meet the award-winning QST Blank. This 112mm-waisted ski is as at home skipping through powder fields as it is ripping high alpine terrain. A progressive profile and shape gives the ski a playful vibe – letting you conquer a variety of terrain, while C/FX carbon and cork add stability so you can charge like Stan Rey.

SALOMON

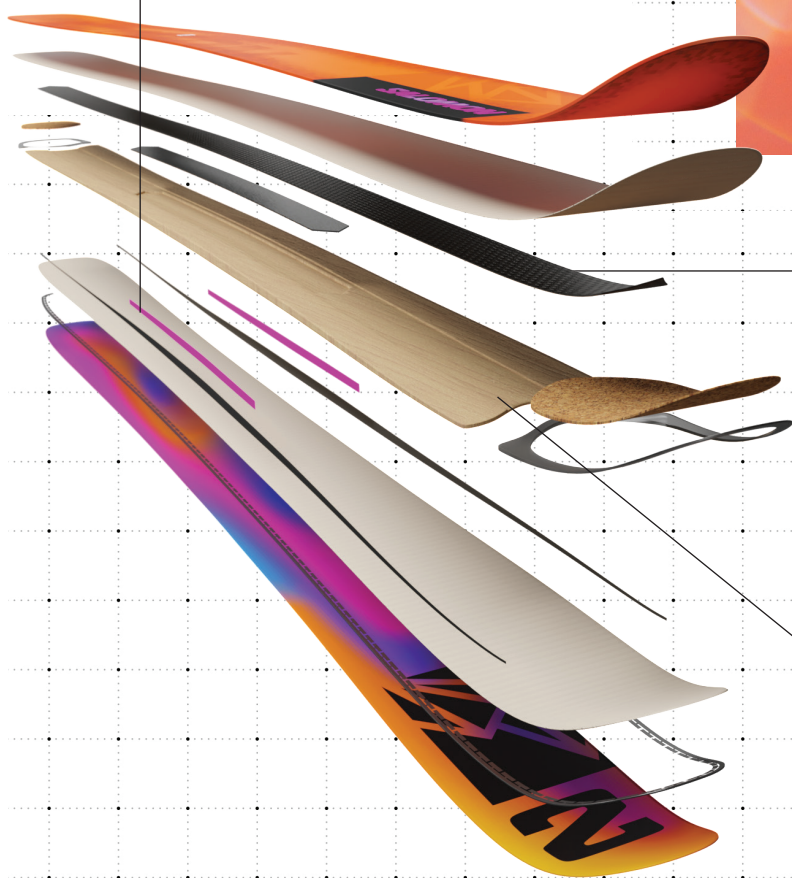

QST

A freeride ski quiver of one.

DOUBLE **SIDEWALLS**

Double sidewalls create a powerful ski with strong edge hold.

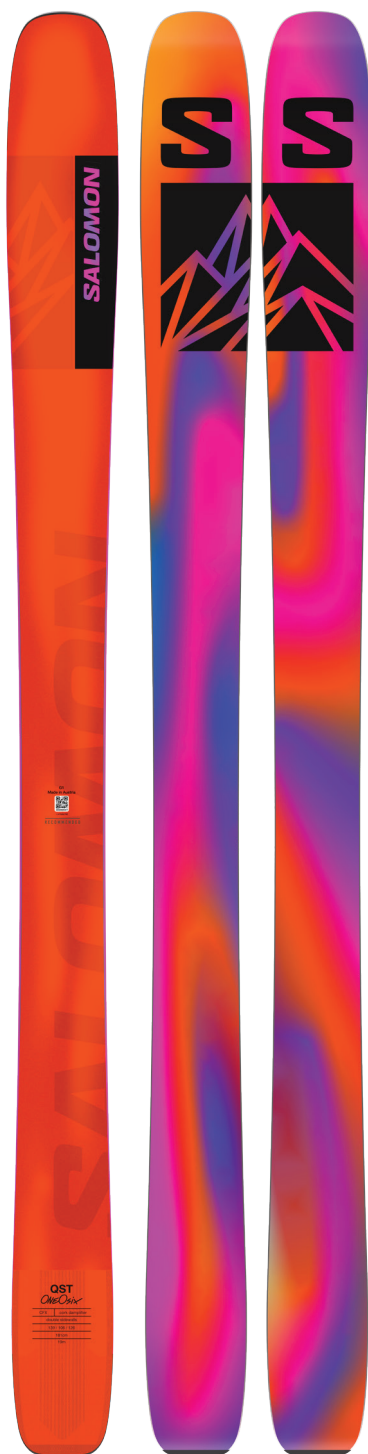

[C/FX] **CARBON FLAX**

C/FX is a fiber layer consisting of Carbon and Flax woven together. It combines the strength, stability, minimal weight of carbon with the increased level of dampening of the flax.

FULL POPLAR

A full Woodcore construction maximizes liveliness, stability and ski-to-snow contact while filtering vibrations.

QST 106

L47606700+ | L47677800+ (And Skins)

A freeride ski quiver of one.

The ski, the myth, the legend: the QST 106 is the most loved QST in the lineup. With a 106mm waist and progressive freeride shape, this versatile ski does it all with style and finesse. Whether you find yourself catching first chair for perfect corduroy or ripping powder fields to après-ski, the QST 106 offers the confidence and agility you've been wanting.

We know the right binding can make the difference between a good and a great day on the slopes, and we are really into making every day extraordinary.

ALPINE BINDINGS

ICON

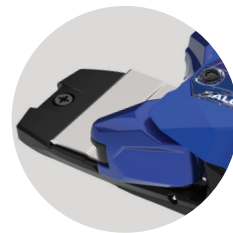

Progress your racing,
carve to the top.

STEEL REINFORCEMENT

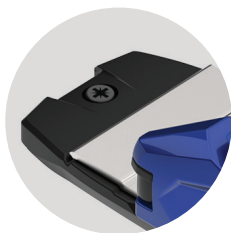

Super rigid, non-deforming material that meets racers' expectations in terms of power and precision.

FULL FLAT RACE PEDAL

A completely flat pedal that grants absolute precision and terrain feedback, especially when combined with Alpine racing boots.

CENTRALIZED POWER TRANSFER

By strategically placing screws under the boot, this mounting pattern maximizes racer's underfoot power and enhances the tip and tail's reactivity and rebound.

NEW

ICON RS 16

L47633700+

Progress your racing, carve to the top.

Adapting Salomon's World Cup-winning binding recipe to the next generation of champions, Salomon's ICON RS 16 is designed for high-end racing. The V-shaped toe piece centralizes power transmission, channeling up to 30% more power underfoot and releasing up to 15% of pressure from the ski's tip and tail to handle even the most challenging turns.

STRIVE

A new era
of downhill skiability.

METAL 3 PARTS HEEL

Extra-wide BC 3-parts heel, providing extreme resistance, strongest hold and increased stability.

LDN TOE

This revolutionary toe piece boasts an ultra-low center of gravity highlighted by an extra-wide pedal and neutral stance, so skiers can feel the pure sensations of all terrain.

EXTRA WIDE TOE **PEDAL** (>60MM)

A super-wide pedal that ensures the best lateral power transmission from skier to ski. Designed for intense freeskiing, perfect stability and enhanced confidence.

STRIVE 16 MN

L47572700+

Ultra-low profile, limitless potential.

The Strive 16 features an ultra low-profile toe piece which creates a low center of gravity. This enhances a skier's power, control, and response due to enhanced sensitivity. The binding lets the characteristics of the ski and slope excel, creating better day on skis.

Responsiveness & Control

An unrivaled 47mm of elasticity builds confidence and security at speed. The low-profile toe piece creates a low center of gravity, providing an unmatched on-snow feel.

Power & Stability

A wide [72mm] AFD pad, gives skiers extra contact between boot and binding. This adds stability and increases power transfer from binding to ski.

Ski & Binding Integration

A low center of gravity creates unmatched ski-to-snow connectivity. Enhanced sensitivity equals quicker reaction, heightened control, and a better day on skis.

S/LAB SHIFT²

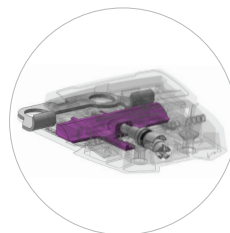

A new era
of downhill skiability.

EASY CLIMBING AID **MANIPULATION**

Ensures easy switch with the poles
between climbing aid positions.

POWER BLOCK **AFD**

A new micrometric, height-adjustable
AFD with a single-block aluminum
insert that supports the boot and
provides 30% more lateral stiffness
compared to previous generations.

SLIDING TOE PEDAL

A specific pedal mounted on a spring
that allows lateral movements and
re-centering. It allows any normed boot
to release out of the binding in case of a
lateral fall.

ALPINE BINDINGS

TOURING

SHIFT

NEW

S/LAB SHIFT² 13 MN

L47586100*

A new era of downhill skiability.

Pushing the iconic SHIFT recipe to new heights, Salomon's SHIFT² bindings are trailblazing a new era of downhill skiability and uphill experience. Meticulously redesigned, these 13 DIN bindings elevate your skiing experience while remaining faithful to the revolutionary concept that made the original SHIFT bindings stand out.

The Power Block technology features a revolutionary Single Block aluminum insert that enhances your boot's support, delivering an impressive 30% increase in lateral stiffness.

Uphill and downhill performance

This binding's convenient switch, full heel rotation, and PIN toe design combine the ease needed for touring with the reliability you want charging down.

Lightweight

Made with Carbon-infused PA, aluminum, and steel, these bindings are stripped to the basics for less weight while keeping all the safety and support tech you need.

S/PRO HV

The boot tailoring Salomon's S/PRO legendary fit to wider needs.

Developed for skiers looking for all the performance and fit of an S/PRO boot but adapted to a wider morphology, this boot has been designed with an anatomic last of 102mm. The wider shell construction offers more room without compromising its high-performance and reactivity, and it's Gripwalk premounted for more safety grip & walking comfort.

SHIFT ALPHA BOA

The uncompromising,
all-in-one freeride boot.

TWINLOCK MECHANISM

This redesigned SkiWalk and FreeSpine offer a wide range of motion and progressive alpine flex, while the horizontal closing position prioritizes safety and durability.

EXOBELT TECHNOLOGY

The strong textile/plastic fastener and BOA® Fit System brings remarkable heel hold and prevents blisters during ascents, while ensuring precision and power during descents.

FREESPINE

This extremely sturdy plastic bar on the back of the boot links the cuff and lower shell to add a layer of reliable alpine progressivity to your freeride comfort.

SHIFT ALPHA BOA

NEW

SHIFT ALPHA BOA 130

L47655900

The uncompromising, all-in-one freeride boot.

Developed to help you master any uphill and conquer every downhill, Salomon's SHIFT ALPHA BOA 130 are true freeride boots with alpine capabilities. The FreeSpine™ connects the cuff and shell for more power and control, while the ExoBelt® and BOA® Fit System deliver micro-adjustable, precision fit engineered to perform in the toughest conditions.

SHIFT PRO

Charge down, shift, climb up.

Designed for skiers who love to charge through unspoiled powder at high speeds, but are tempted by the occasional escapade to hike a new peak, Salomon's SHIFT PRO 130 AT combines the stability and power of a true alpine boot with the versatility of a touring boot. Inbounds or out of bounds, the shift has never been easier!

S/LAB MTN SUMMIT

To the summit and back, the only limit you'll face is the one in your head.

Salomon's S/LAB MTN SUMMIT boot strikes the perfect balance between the lightness needed to effortlessly go up, and the reliable performance required to ski down. The ultra-light Ultramid® Shell, 70 mm wide Dual Powerstrap and thin liner deliver the precise calf-wrapping and consistent tightness needed to conquer even the most extreme routes.

S/RACE 65

L47343700

The S/RACE winning recipe, adapted to junior skiers.

Leveraging on Salomon's best S/RACE technologies, and adapting them to junior-sized feet, the S/RACE 65 is a lightweight racing boot that delivers the winning performance of an adult boot to even the youngest racers.

BINDING COMPATIBILITY

CHILDREN NORM

ADULT NORM

You forget they are there,
yet you become well aware when
they are not - the right poles are
essential for thoroughly enjoying
a day on the snow.

ALPINE POLES

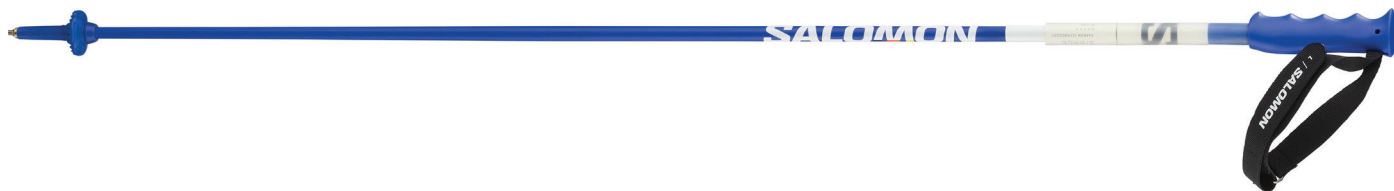

S/RACE CARBON

L47022000

Race blue

When victory is the final measure of performance

S/RACE CARBON provides all the lightweight and shock absorption of carbon, with added durability around the upper shaft so you can go full-gas in the course. Precision grip, light swing weight, and optimal stiffness, this pole is hungry for speed.

S/RACE JR

L47022900

Race Blue

The pole which helps young racers optimize every hundredth of a second.

A light, ovalized shaft optimizes stiffness while the four-finger race grip ensures precision at each pole plant, because fast response and stiffness at low weight can make all the difference when every hundredth of a second counts. And, when it's time to hit some slalom gates, simply mount on the hand protection and go!

PICTO	DESCRIPTION	PICTO	DESCRIPTION
MY CUSTOM FIT 	An instantly-fitting pre-shaped liner featuring cushier foams and easy-to-adapt outside placement of the Talyn® fabric with an elastic toe that box gives more forefoot space.		System that delivers micro-adjustable, precision fit engineered to perform in the toughest conditions.
EXOWRAP 	This innovative technology redefines perfect fit. The unique shell and liner construction with the BOA systema precisely wrap your feet to maximize foothold and performance.	FREE SPINE 	This extremely sturdy plastic bar on the back of the boot links the cuff and lower shell to add a layer of reliable alpine progressivity to your freeride comfort.
3D INSTEP SHELL 	This Shell technology, with its thinner plastic and 45° positioning of the 2nd buckle ensures stronger heel lock and more consistent foothold without unnecessary instep pressure.	EXOBELT 	The strong textile/plastic fastener and BOA® Fit System brings remarkable heel hold and prevents blisters during ascents, while ensuring precision and power during descents.
CUSTOM SHELL HD 	The Custom Shell HD process lets bootfitters personalize to the boot's lower shell in 10 minutes, while thin wall construction and new materials keep the foot closer to it.	TWIN LOCK 	This redesigned SkiWalk and FreeSpine offer a wide range of motion and progressive alpine flex, while the horizontal closing position prioritizes safety and durability.
POWER SPINE 	This metal plate links the cuff and the shell to provide strong back support, progressive rebound out of the turn, and powerful forward flex no matter the snow conditions.	POWER WEDGE 	A little insert into the FreeSpine, the Power Wedge enhances your range of motion when unlocked and boosts power transmission when locked for an authentic alpine experience.
TOURING BELT 	A strong plastic strip, fixed to the inside of the boot and linked to the BOA fit system's cable, enhances tightening and ensures perfect foothold for walking up and skiing down.	MY CUSTOM FIT 	This pre-shaped liner offers an increased foothold and fit. Cushier foams and outside placement of the Talyn® ease adaptation, while the elastic toe box gives more space.
CUSTOM TONGUE 	Fully dismantlable and entirely customizable tongue that allows for a perfect adaptation of the instep height. You can add foams or remove materials where it's needed (+/-3mm).	MY CUSTOM FIT 	This pre-shaped liner offers an increased foothold and fit. Cushier foams and outside placement of the Talyn® ease adaptation, while the elastic toe box gives more space.
CALF ADJUSTER 	The Calf Adjuster offers a higher and wider calf perimeter capacity, fitting all leg shapes easily and quickly.	ENERGYZER CLAW 	This new, 50 mm wide booster system strap features a powerful clamp and redesigned hook for easier, safer handling and more efficient power transmission.
AUTOSTRETCH	This anatomically designed liner improves comfort while ensuring a warmer fit. The elastic sides of the Autostretch construction allow for perfect adaptation to your calf.	RACE SPINE 	The innovative design of this new locking system incorporates an additional screw between the boots' cuff and lower shell, resulting in enhanced power transmission.
FULL SERVICE 	The buckles, toothplate, strap and oversized pivot are screwable so dismantling the boot is easy and bootfitters can easily access all parts when working on customizing the fit.	MY CUSTOM FIT 	A pre-shaped World Cup liner offering snugger foothold and wrapped fit. Outside placement of the Talyn® fabric eases personalization, the elastic toe box gives more forefoot space.
GRIP WALK	These boots are premounted with Gripwalk soles but compatible with alpine ones. It's really easy to switch between the two, providing a great deal of convenience.		
GRIP WALK OPTION	These boots are premounted with alpine soles but compatible with Gripwalk ones. It's really easy to switch between the two, providing a great deal of convenience.		

PICTO	DESCRIPTION	PICTO	DESCRIPTION
 <p>LDN TOE</p>	<p>This revolutionary toe piece boasts an ultra-low center of gravity highlighted by an extra-wide pedal and neutral stance, so skiers can feel the pure sensations of all terrain.</p>	 <p>STEEL REINFORCEMENT</p>	<p>Super rigid, non-deforming material that meets racers' expectations in terms of power and precision.</p>
 <p>HYBRID TOE</p>	<p>Ultimate elastic travel allowing for the boots to be held back when shocks get bigger. Compatible with all the normed boots with no compromise on safety or performance.</p>	 <p>EASY CLIMBING AID</p>	<p>Ensures easy switch with the poles between climbing aid positions.</p>
 <p>PIN TOE</p>	<p>Easy step-in thanks to the patented guiding elements allowing the right positioning of the toe. Wider screw implementation avoids pulling out of the bindings from the ski.</p>	 <p>POWER BLOCK AFD</p>	<p>A new micrometric, height-adjustable AFD with a single-block aluminum insert that supports the boot and provides 30% more lateral stiffness compared to previous generations.</p>
 <p>CPT TOE</p>	<p>This toe stop has a 3-screw drilling pattern that centralizes power transfer underfoot giving more freedom to the tip and tail of the skis.</p>	 <p>TOOL LESS</p>	<p>No tools required to adjust for different boot sizes.</p>
 <p>3 PARTS HEEL</p>	<p>Extra-wide BC 3-parts heel, providing extreme resistance, strongest hold and increased stability.</p>		
 <p>MONOBLOC HEEL</p>	<p>This binding features a heel piece that merges the jaw and lever, making it a low-weight construction that is very convenient to use.</p>		
 <p>PIN HEEL</p>	<p>Heel Piece Energizer technology proven by being the most reliable concept in the Endurance Touring world. No need to turn the heel to manipulate the climbing aids.</p>		
 <p>METAL 3 PARTS HEEL</p>	<p>Extra-wide BC 3-parts heel with metal lever, providing extreme resistance, strongest hold and increased stability.</p>		
 <p>EXTRA WIDE PEDAL</p>	<p>A super-wide pedal that ensures the best lateral power transmission from skier to ski. Designed for intense freeskiing, perfect stability and enhanced confidence.</p>		
 <p>FLAT RACE PEDAL</p>	<p>A completely flat pedal that grants absolute precision and terrain feedback, especially when combined with Alpine racing boots.</p>		
 <p>ALUMINIUM [AL]</p>	<p>A rigid and strong construction that allows enhanced power transmission.</p>		
 <p>CARBON FUSED PA</p>	<p>A very lightweight and resistant alloy of carbon and polyamid to fulfill the need for very light weight, extreme resistance and rigidity.</p>		

164 **GLOSSARY SKIS PICTOGRAMS**

PICTO	DESCRIPTION
	<p>The redesigned, SL-specific two-piece Edge Amplifier provides 30% more edge grip while maintaining the right amount of flex underfoot for increased reactivity, agility and grip.</p>
	<p>The GS-specific Edge Amplifier ski-plate construction transmits all the power to your edges, for unmatched edge grip and stability at high-speeds.</p>
	<p>By using cork in the tip of the ski, which is three times more absorbing than Koroyd, a high level of vibration absorption and dampening is achieved without adding any weight.</p>
	<p>The tip construction has lateral TPU inserts which act as bumpers and better absorb shock, while a layer of carbon powered C/FX improves dampening properties.</p>
	<p>By fusing flexible polymer inserts into the TI layer, this innovative construction maintains the ski's stiffness but adds the liveliness needed for high speed through the turn.</p>
	<p>The Motion Tail technology fuses flexible polymer pads into the TI layer, increasing the flexibility of the tail by 5% for a more forgiving yet responsive all-day ski experience.</p>
	<p>A visible layer of Titanal underfoot, above the woodcore, extended by carbon inserts at Tip and Tail to maximise MANOEUVRABILITY without affecting PERFORMANCE of the narrower waist width.</p>
	<p>A core made of full poplar woodcore encapsulated in a foam. When pressed into a full sandwich ski it makes it the lightest full woodcore ski on the market.</p>
	<p>Semi Sandwich Sidewalls guarantee stability and smooth ski-to-snow contact by providing maneuverability for easier engaging turn feeling.</p>
	<p>High density injected piece of ABS underfoot combined with full length sidewalls which allows a strong platform underfoot to maximize the grip on hard snow.</p>
	<p>The C/FX layer consisting of Carbon and Flax fibers woven together, combines the strength, stability, minimal weight of carbon with the increased level of dampening of the flax.</p>
	<p>Double layer of titanal, one on either side of the core, improves hard snow performance. It increases precision, offers a good edge grip and improves responsiveness.</p>
	<p>A single layer of titanal reinforcement on top of the core for great edge grip, efficient energy transfer and liveliness.</p>

PICTO	DESCRIPTION
<p>KARUBA POPLAR</p> 	<p>Woodcore is a mix between poplar and karuba, to offer a specific women construction. Karuba offers lightweight and inertia.</p>
<p>FULL KARUBA</p> 	<p>This woodcore is made with 100% karuba type of wood to offer the best of light-weight to maximise your touring experience.</p>
<p>POPLAR</p> 	<p>Woodcore offers stability, liveliness and forgiveness while ensuring good ski-to-snow contact.</p>
<p>FULL POPLAR</p> 	<p>A full Woodcore construction maximizes liveliness, stability and ski-to-snow contact while filtering vibrations.</p>
<p>ABS SIDEWALLS 100% RECYCLED</p> 	<p>A newly patented Salomon process that recycles our factory's ABS waste and create new 360° ABS sidewalls.</p>
<p>DUAL CORE 2</p> 	<p>This sandwich construction with high transmission tri-axial fiber and ash woodcore brings additional stability and boost while reducing the weight of the set-up.</p>
	<p>Ash woodcore offers high power and stability in one for unmatched performance</p>
