***SALOMON***

**T**rends change, technologies do too, sports and outdoor activities evolve. Occasionally, whole industries are redefined by a seemingly small change that quickly becomes such pervasive that it seems impossible there was ever a time “before”.

Steel edges, self-releasing heelpieces, forward-flexing ski boots... all born from the passion, engineering, and innovation of a company fascinated by the outdoors. Our innovation has been driven by generations of athletes, ambassadors, developers, and behind-the-scenes experts working tirelessly to advance the practice of our favorite sports and offer an opportunity to people to be their best selves.

To some, 1947 and 2024 are just years, to Salomon they mark a 77-year-long dedication to innovation and excellence. In Annecy we have been dedicated to inventing tomorrow since 1947 and continue to be excited about shaping the future.

“What fascinates me the most, is what I will do tomorrow.” George Salomon said it, the Salomon Family continues to live by it.
